

## CHUNG MING

### Focusing on Functional Fabrics

Established in 1988, Chung Ming Textiles built a strong developing team; with the newest technology and equipment, they expanded to various products in different industry. Their textiles are mostly for sport apparels, sport equipment, shoes, hats, medical products, furniture, and etc. They do not only offer variety of textiles for customers to choose from, but also customize products to fulfill customers' needs.

This company innovate variety of functional fabrics, using this highly functional, anti-stain white mesh fabric, with firm, breathable, soft and comfortable, skin-friendly and good hand feel performance. With embroidery and exclusive graphic design, it is worthy of a commemorative collection of Da-Jia-Ma hats.

They specialized in developing several of functional fabrics, so far they have variety of high-elastic fabrics, hydrophilic and hydrophobic fabrics, anti-bacterial deodorant fabrics, anti-UV/IR resistant fabrics and nano high-strength fabrics. Environmentally friendly and dedicated to the earth, 2019 Chung Ming Textile promotes the US Unifi yarn recycling polyester brand Repeve, with utilizes the diversification of tissue mesh to produce diversified fabrics and apply them to sportswear and shoe fabrics.
