

【Press Release】

Taipei, September 28, 2023

Check out TITAS 2023 Trend Zone Online Show!

TITAS 2023 launches 4 online shows featuring “Sustainability, Functional Applications, Intelligent Manufacturing, and Trend Zone”. TITAS Trend Zone Online Show will kick off from September 28 to October 31. Be the first to see 500+ selected products from TITAS 2023 exhibitors, showcasing the latest trends and collections in sustainable and functional textiles!

The exhibit scope will include as below:

- **Sustainability:** Focus on sustainable materials and sustainable manufacturing materials. Sustainable materials include fiber modification and bio-based material, pre-consumer recycled materials, and post-consumer recycled materials. Sustainable manufacturing materials indicate materials made from solution-dyed, low-liquor ratio dyeing, waterless dyeing, low-temperature dyeing, solvent-free, cool transfer printing, etc.
- **Functional Application:** Highlight in sports textiles and industrial textiles. The sports textiles can be used in indoor, outdoor, and water sports. The types of industrial textiles include functions such as high protection properties such as high tenacity, chemical resistance, high-temperature resistance, high antifouling, antibacterial and antiviral, etc.
