

ARTECHPMS LTD.

Founded in 2012, ArtechPMS now branches out from its original establishment of providing paper products and steps up to achieve vertical integration. We now offer full service of sustainable packaging and a stable supply of eco-materials.

As the world goes on the journey to achieve optimal sustainability, the demand for premium eco materials such as PCR or biodegradable polymer is soaring higher than ever. Artech cognizes that securing the source is key to our success.

Developing recycled materials and innovation in bioplastics, Artech focuses on traceability. From polymer pellets and products to our company, all go under third-party evaluation and are certified for Chain of Custody to assure the greatest standard.

Our recycled line poly bag is certified by third-party standards like GRS (Global Recycled standard) and RCS (Recycled Claim Standard). From recycled content of the pellets or chips to a chain of custody (CoC), we value traceability as well as social and environmental practices.

For paper packaging, we have acquired FSC (Forest Stewardship Council) Chain of Custody certification along with a certified upstream supplier to guarantee reliable material source and production under regulation.

Global Supply

- Customer base across the globe
- Supply chain from Taiwan, China, to South East Asia
- Knowledge of the market trend
- Solve our customers' problems globally

Local Manufacturing

- Local support and services
- Sales team and technicians in production sites
- Response within 24hrs.

One-Stop Shopping

- Explore various industries to find the best solutions
- Integrating our expertise and supply chain
- One-stop shopping service.
