

Dah Jeng Embroidery Inc.

Quality Makes Difference, Dah Jeng Makes Quality Happen!

Dah Jeng Embroidery Inc., a manufacturer with over 37 years of embroidery experience will bring you fine and exquisite embroidery articles other than old-fashion embroidery patches in TITAS this year.

In addition to traditional embroidery patches, we will also show the following different embroidery performance techniques on the TITAS 2021 exhibition:

-Embroidery with recycled thread & fabric: It not only keeps the beauty of traditional embroidery patches, but also add eco-friendly elements. These embroidery patches are using recycled fabric and embroidery with recycled polyester thread to create an eco-friendly environment.

-Embroidery Tags with washable paper backing: Dah Jeng combines fine embroidery techniques and washable paper to create products other than patches. Embroidery tags can be used as decoration or belongs identification on bags or luggage. Washable paper back can be written directly, it' s eco-friendly!

-Removable & Reusable Embroidery Sticker: The high quality stick-on embroidered patches are the easiest way to personalize your possessions. The adhesive glue can be easily removable without glue leftover from the objects. The embroidery stickers can be used to décor your walls, desks, backpacks, caps, smartphone cases and more.
