

GUANG CHUANG CO., LTD.

Creating the new history, while being a part of it.

The characteristics of the canvas are like the simplicity and diligence of Taiwanese people. Stitch by stitch, we knitted the beautiful stories of Taiwanese history.

We have been rooted in Taiwan for 18 years. During these years, we experienced the peak and bottom of the Taiwanese OEM industry. Not wanting to be eliminated by the enormous change in time, we decided to have a revolution. To reconstruct the traditional detailed craft, we adjusted the compensation of our employees to reasonableness, set their value and identification of their hard work and raised their social status.

Furthermore, we cooperate with Taiwanese designers. We extend our creativity based on the combination of Taiwanese culture and local spirit and let our products be full of Taiwanese style.

About our materials, we strictly control our product quality. All of our products use 100% Taiwanese 16-18oz, water-proof backing canvas. This material can increase the durability and functioning of our bags. Besides our high-quality canvas, all the other materials used on our bags are friendly manufacturing and reduce pollution during the process of manufacturing. By doing this, we aimed to offer products that are worthwhile and can be used soothingly.

GFH will never stop increasing our craftsmanship and trying to introduce our products to the world. We would like to tell everyone, "The skill of stitching is a kind of craft that needs time to ferment.
