

## Sunny Special Dyeing & Finishing Co., Ltd, SUPPLY GREEN, SAVE GREEN

Sustainability has always been the biggest goal of Sunny Special Dyeing & Finishing Co., Ltd., and it continues to provide environmentally friendly functional fabrics and excellent dyeing and finishing technology. Certified by Bluesign, GRS, HIGG, and OEKO-TEX 100, we use safety-certified chemicals to protect the environment and also provide customized fabrics with stretch.

In order to provide comfort and stretch experience to meet every occasion in life, Sunny Special Dyeing & Finishing Co., Ltd launched six series of Elastech.

- **Extreme:** super elastic and suitable for sportswear
- **Defence:** as an elastic fabric, it also has the functions of rainproof, wind resistance, UV protection, and a nice hand feeling.
- **Airfit:** composed of air textured yarns and elastane, the cotton-like hand feel is really soft and comfortable.
- **Urban:** use silky fabrics with delicate luster and stretch for an urban, stylish, and comfortable outfit.
- **Tough:** is made of nylon 66. It is strong and suitable for high-strength sportswear such as rock climbing.
- **Mechcozy:** mechanical stretch and soft touch, easy to wear for leisure and relaxing moments

The Elastech collection gives you excellent comfort from day to night, Monday to Sunday, and enjoy every moment of life! That's why we created the Elastech fabric collection.
