

UNIVERSAL WEBBING PRODUCTS CO., LTD.

Universal Webbing Products Co., Ltd. is a success story of a family business. Founded in 1959, the company, now in its fourth generation, is characterized by a tradition of craftsmanship, innovation, creativity, and quality. For over fifty years, we have been helping our customers create beautiful products. We are committed to offering excellent service that is reliable, efficient, and flexible.

The vertically integrated industrial structure allows management to control the entire supply process in order to respond quickly to market demands. The strength of the factory lies in our cutting-edge machines for each production phase, such as dyeing, yarn spinning, warping, winding, and weaving. Prompt delivery and flexible customization of the product can be granted to the most demanding customers.

We are constantly engaged in researching and developing new webbing inspirations that are responsive to the new fashion trends. Our collections are highly diversified and made utilizing nylon, polyester, cotton, wool, viscose, chenille, lurex, lycra, rayon, and acrylic yarn. We put in the hands of fashion designers a vast world of possibilities. We custom-develop narrow fabrics. If you do not find what you are looking for, we can develop it for you.

Highly Customized Products

Products are developed exclusively for our clients, using the best manufacturing techniques, with accurate support from our staff. Your brand and our expertise make your products unique and your vision realized.

Heritage and Tradition

Exceptional levels of precision, craftsmanship, and dexterity create beautiful products. Large archive of narrow fabrics from over fifty years of history.
