

TEXXAR CO., LTD.

Dare to Discover

Discovery: the driving force behind TEXXAR' s relentless pursuit of improvement

**F**abric is a staple product that comes in a wide variety of textures and meets a wide variety of needs. Fabric adds depth and style to our everyday lives. As a medium that links fabric and brands, TEXXAR has held to its commitment to be flexible and adapt. With boldness and the passion to explore and discover, TEXXAR strives to push fabric boundaries and deepen the link between fabric and life.

Over the past twenty years, we have come to know the importance of exploration. Exploration is not just the willingness to try something new; it' s about effort in thought and practice and the art of knowing what to retain and what to discard. Unique textiles help shape the direction of our industry. We care about solving our clients' problems and meeting their needs. We find inspiration in a product beyond seeking new textures, styles, and processes, so we can develop a bond between fabric and daily life.

Continual exploration means more to us than just exploring the world of fabric. TEXXAR dares to use new practices in the face of difficulties, and this is the original TEXXAR mindset that we continue to improve. We remain keen and open, striving to bring fabric to the world and add a new touch to life.

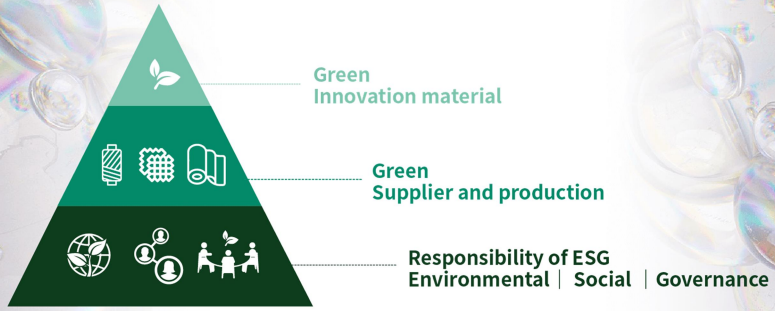

At TITAS 2022, TEXXAR, with the core concepts of environmental friendliness and sustainability released innovative technologies and products in the fields of functional outdoor/sports knitting fabrics and yoga elastic fabrics.

Provide a multifunction and achieve permanent performance, reduce the use of chemical additives, and environmental pollution.

Building a green textiles world and exploring sustainable and innovative resources.  
TEXXAR will continue to provide the best products for our customers.
