

Juey Chi Knitting Products Manufacturer Co., Ltd.

Soft gold from nature, sports application of natural pure wool

Due to climate change, the warming of the earth is getting increase. Consumers are more pursuing natural clothing materials that are friendly to the environment. The sustainable material that do not harm the environment get more and more popular.

The wool fiber is collected from natural animal, it can be decomposed well and does not cause secondary pollution to the environment, so it becomes a good textile material.

Juey Chi knitting expand the application of pure wool into different places, such us sportswear and scarves. With the characteristics of light-weight and warmth, the wool could be very comfortable and fashion.

Juey Chi has always been focusing on the development of wool knitted products. One of our main product is the knitted sweaters .We could also produce wool knitted sweaters, wool knitted tops, wool knitted cardigan.

With the increase of outdoor sports, the consumers are more pursuing the functionality of clothing. Especially when the consumer process the exercise with high strength, such as mountaineering and camping, they seek for a lighter and thinner clothes.

Juey chi Knitting has developed ultra-fine mercerized wool fabrics. The clothes made from this wool fabric could be very light and thin .It just like another skin next to the body. With the characteristics of wool, the wool fabrics could help keep the warm of the body and very breathable.
