

K and K Taiwan Ltd.

Better Trims, Better Future!

K and **K** established a Taiwan branch last year, and this is the 1st time to join for TITAS show! Under 30 years of changing trends since 1993, we firmly believe that only by providing good quality, sustainable products and innovative designs can we grow together with our customers for a long journey!

Our company products are all certificated by bluesign, Oeko-tex standard 100 Class 1. We also have recycled materials which are certificated by GRS, biodegradable yarn that has passed various tests, and BCI better cotton to promote environmentally friendly production by reducing water use and carbon reduction goals.

This year, we will provide the latest ideas to various customer groups in three different categories as below:

1. Sustainable products

(e.g.: recycled material marble finished 、traceable recycled yarn products)

2. Technical products

(e.g.: heat sealed functional products, special snap systems, bluesign verified Velcro)

3. Functional products

(e.g.: Biodegradable yarn products, Nano fiber products, PFAS free water repellence products)

See you soon in our booth at TITAS in Oct 2023!
