

## Knitmore Co., Ltd.

From material sourcing to final products  
Fabriceasy always be your side

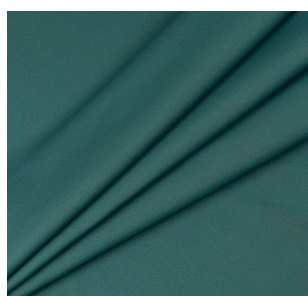

**K**nitmore Co., Ltd. is committed to the transformation of production and with the advantages of parent company Reamou as a distributor. In 2021, we set up an online website [Fabriceasy] which integrate performance fabrics and functional materials. We provide designers, brands and handicraft who are interested in developing various special materials and functional fabrics with online retail where they can purchase a small amount of materials. We also try to assist self-employed to simplify complex processes such as developing new fabrics, innovating fabric types, developing products, finding special materials, etc.

We try to launch various finished products to lead to more technologies and ideas; in this exhibition, we will display our development achievements, such as:

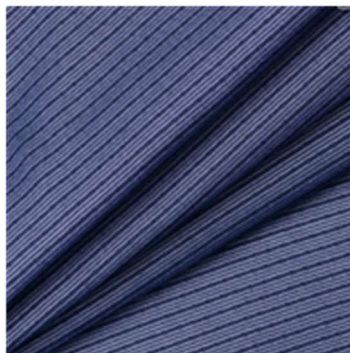

1. Evolon<sup>®</sup> microfiber has strong water absorption and quick drying ability, anti-mite, and does not produce cotton wool, which is an excellent material for sports towels, bedding, wiping cloths, etc.

2. LYCRA<sup>®</sup> fiber, you can feel the first-class of strong covering, great resilience and good elongation from its fabric and products;

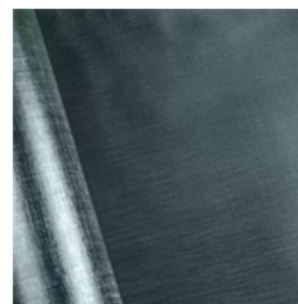

3. CoolVisions® PP have dyeable and dope dyed fiber, its hydrophobicity keeps body comfortable and dry, and its moisture absorption, perspiration & antibacterial are excellent, it is the best choice for sportswear;

4. ENDUR by Ascend® is long lasting anti-static fiber, it keeps dust-repellent, hair-repellent, and it's the ideal for many application, such as loungewear, eveningwear, shapewear and childrenswear;

5. Dyneema® fiber and DCF composite fabric have excellent waterproof, abrasion resistance and strength. It's an innovative existence in the selection of outdoor products.

Various products are introduced from the old to new, and the family is too numerous to list. If you want to know the details, look forward to your visit. [Fabriceasy] will assist everyone who is interested in development and innovation. Let's cooperate to develop ideal products. All beginning are difficult, we hope we will become your capable assistant, work and grow together.
