

**SUMMER SMILE INTERNATIONAL CO.**  
**Combining functionality with fashion, nothing is impossible.**

Summer Smile International Co. (Demimoore), as a customized shapewear brand, firmly believes that every piece of fabric holds boundless possibilities. Through this exhibition, our company aims to showcase the most forward-thinking products to the industry and consumers, where functional fabrics merge with cutting-edge technology, eco-consciousness, and design aesthetics, bringing a fresh perspective and service to the textile industry.

In the past, our company has focused primarily on producing women's shapewear and lingerie, utilizing the ODM and OBM approaches for both domestic and international markets. In response to diverse demands in the textile market, we have broken free from conventional frameworks this year. By harnessing Taiwan's renowned functional fabrics and combining them with our end-to-end design and technology, we have crafted an array of garments including jackets, sleeves, gloves, underwear, insect-repellent clothing, and more. We adhere to the belief that "there is nothing that can't be done, only things you haven't thought of."

Whether you are a textile industry professional, designer, consumer, or an individual with a passion for fashion and innovation, we sincerely invite you to join us at the captivating Taipei Textile Exhibition. On this platform that showcases innovation and breakthroughs, we will together witness the future of the textile industry.
