

TUNG HO TEXTILE CO., LTD.

Sustainable development is our core value.

Tung Ho has been established for 70 years, with sustainable development being our core business philosophy. Positioned as a “Multilateral Functional Spun Yarn Expert” in the market, Tung Ho has consistently expanded the production lines for special functional yarns. It has expanded to 17 production lines and introduced innovative and functional fibers as well as advanced spinning technology such as Siro, Compact, Siro-Fuse, and Siro-Wrapped, to meet the needs of customers in terms of small quantities and diverse product development.

With sustainable development as the corporate vision, Tung Ho has implemented green energy and energy-saving systems, creating an eco-friendly factory that reduces carbon emissions and utilizes clean energy. The solar output of Madou plant reaches 2.7GWh annually, leading to a reduction of approximately 1,400 tons of carbon emissions.

The main products are divided into five major series: "General CVC," "dri*release*," "Composite Function," "SIRO," and "Eco-friendly." Among them, "dri*release*," "Composite Function," "SIRO," and "Eco-friendly" are the key focuses for our future development.

dri*release* Series

A perfect mingling of moisture wicking and fast drying to allow the fiber to absorb moisture, performance of permeability, and odor control.

SIRO Series

Tung Ho introduced advanced spinning technology and equipment from Germany, including Siro-Compact, Siro-Fuse, and Siro-Slub, which can help to make yarn with unique features like low hairiness and soft hand feel and outstanding fabric surface effect. Tung Ho creates higher value for customers.

Composite Function Series

Tung Ho carries a wide array of functional fiber, including moisture wicking, temperature regulating, antibacterial and odor removal, skin-friendly and moisturizing, and excellent hand feel. Tung Ho can help the customers to design functional fibers with superb hand feel.

Eco-friendly

Tung Ho has introduced biodegradable, environmentally-friendly, botanical, and regenerated materials as options for customers who prefer environmentally-friendly products. The entire factory of Tung Ho has been accredited by Control Union, OCS, GOTS, GRS, and RWS, making it a qualified supplier of eco-friendly textile products.
